Section 3: Hazard identification

Potential Health Effects:
Non-flammable material.
This product may cause asphyxia if released in a confined area.
Rapidly evaporating liquid may cause frostbite.

WARNING:
Toxic gases (such as HF, CO) will be produced if this product is decomposed by heat.

Section 4: First aid measures

Inhalation: Remove to fresh air. Keep warm and at rest.
If breathing has stopped, give artificial respiration.
Use oxygen as required, provided a qualified operator is available.

Skin Contact: Wash with lukewarm water (not hot).
Consult a physician if frostbitten by liquid or if irritation occurs.

Eyes Contact: Flush with plenty of water for several minutes (remove contact lenses if easily possible). Consult a physician.

Ingestion: Ingestion is not considered a potential route of exposure.

SECTION 5: Fire-fighting measures

Fire fighting procedures:
Keep personnel removed and upwind of fire.
Wear self-contained breathing apparatus (SCBA) and full protective equipment.
Water may be used to cool and protect exposed containers.
Stop the flow of gas if possible.

WARNING: Hazardous decomposition products including carbon dioxide, carbon monoxide, hydrogen fluoride, toxic gases or particles may be formed during combustion. These products may cause severe eye, nose, throat, and lung irritation or toxic effects.
SECTION 6: Accidental release measures
General Information Use proper personal protective equipment as indicated in Section 8. Keep personnel not involved with emergency activities removed and upwind.
Spills/Leaks Protected personnel should shut off leak, if without risk, and provide ventilation.

SECTION 7: Handling and storage
Handling Use proper personal protective equipment as indicated in Section 8.
Use in well ventilated areas.
Wash hands thoroughly after handling.
Wash clothing after use.
Exposure to toxic gases through inhalation can occur if smoking tobacco becomes contaminated by this material. Therefore, do not smoke in the work areas and wash hands and face after handling in order to avoid transfer of the material onto smoking tobacco.
Keep away from heat, sparks and flames.
Storage Keep containers tightly closed in a cool place away from heat, sparks, and flames.
Store in a tightly closed container.

SECTION 8: Exposure controls / personal protection
Exposure limits AHA WEL TWA = 500 ppm (2000)
Engineering Controls Provide local exhaust to prevent accumulation of high concentrations.
Personal Protective Equipment:
Eyes Wear safety glasses or coverall chemical splash goggles.
